Pédiadol Days
The Pain of children
30-Year Anniversary

PLENARY SESSION DAY
MARCH 20, 2024

Pédiadol: The pain of children, the past and the future

Cards in hands to reduce the pain of injections: the vaccination model

Anna Taddio (Toronto, CA)

Pédiadol : 30 years of action, gold nuggets to discover

Pédiadol team

A European alliance to improve children's comfort during procedures : PROSA, PACTS and PEDIADOL join forces

Cyril Sahyoun (Geneva, CH), Bénédicte Lombart (Paris, FR), Koen Vanhonselbrouck (Louvain, BE)

A national training program : the PROSA model

Koen VanHonselbrouck (Louvain, BE), Piet Leroy (Maastricht, NL)

Approaching children afraid of procedures

How to care for frightened children : what the approach to children with special-needs teaches us

Cyril Sahyoun (Geneva, CH)

Familiarizing children with procedures : the example of SimUTED, a program dedicated to children with ASD

Béatrice Jamault (Amiens, FR)

A philosophical look at the cared-for child

Laurent Bachler (Paris, FR)

Watch & Listen to the child

Adopting a child-centered approach during procedures

Lucy Bray (Ormskirk, UK)

One for all and all for one : a tool for tracking procedural pain

Charlotte Rulac (Bordeaux, FR)

When listening to complaints helps us to provide better care : the underside of endometriosis pain

Céline Bouchart (Paris, FR)

The pain of menstruation : let's talk about it

Jehanne Malek (Paris FR), Florence Reiter (Paris, FR)

Innovation for better training

Did you say a "pain specialist"?

Christophe Hontang (Villefranche sur Saône, FR)

Simulation for painful procedures, Really?

Jehanne Malek (Paris FR), Maryvonne Paugam (Paris, FR)

Latest news from the SPARADRAP Association

Juliette Roussel (Paris, FR)

Celebrating 30 years...
Surprises and gifts!!!
